## HD Brows Microblading

Microblading can often be referred to under a lot of different names, including semi-permanent eyebrows, eyebrow embroidery, hair stroke tattoo and 3D/6D brows. It's a form of permanent make up that uses a precise handheld tool to create ultra-fine lines.

Just like the signature HD Brows treatment, HD Brows Microblading isn't 'one size fits all'. We create brows totally tailored to you with a natural looking finish, making it ideal for men and women, those with thin or sparse brows or recreating brows after hair loss.
